City of Albuquerque

Bid Project Status:

Open to Bid

Project Description:

Improvements to flocculation and sedimentation components of the Canyon Road Water Treatment Plant

(CRWTP), located at 1780 Upper Canyon Road, Santa Fe, New Mexico 87501. The project includes, but is not limited to, the following scope items:

- Demolition of existing clarifier equipment (tube settlers, launders, sludge rakes, etc.);
- Structural additions (concrete slabs within each clarifier, flocculation walls, bifurcation walls within each clarifier; inlet splitter boxes, walkways, and settled water channels);
- New flocculation and sedimentation equipment (vertical paddlewheel flocculators, lamella plate settlers, and hose less residuals collectors);
- All associated power, controls, process and chemical piping, and valves;
- A new flocculation MCC electrical building with associated grading and paving, including potable water yard piping relocation, and all associated instrumentation, electrical, architectural, and HVAC design components as required for proper function;
- Residuals blowdown pump replacement;
- A flocculation aid polymer system;
- Repair and reconstruction of existing improvements affected by the Work;
- Incidentals for a complete and usable plant.

Small, minority and disadvantaged firms are encouraged to bid.

Please submit bids to bids@bradburystamm.com at least 24 hour prior to the bid time and qualifications to quals@bradburystamm.com at least 24 hours prior to the bid time.
