Project Name

San Juan County Clerks Office Expansion & Renovation

Trade Name(s)

Planrooms

Location

100 S. Oliver Drive, Aztec, NM 87410, United States of America

Project Size

3,980 sq. ft.

Project Information

Base Bid: San Juan County is adding a 3,980-square-foot addition to its Administration building using a steel post-and-beam structure with matching existing exterior finishes. The project includes interior renovations to create an open layout, requiring the removal of an existing exterior wall and an expansion of the Early Voting room. Existing utilities will be extended, and new HVAC units will be added to supplement the reused systems. Phasing will allow staff to remain in the building until interior work necessitates a temporary relocation.

Alternate: New Security Fencing and gates at north side of building.

Phase 1 - New Building Addition - Begin after Notice to Proceed

Phase 2 - Enlargement of Early Voting Room - Begin January 2027

Phase 3 - Interior Renovation
