Please submit your proposal on your company letterhead.

Subcontractors are responsible for reviewing all plans, specifications, addenda, and bid documents prior to submitting their proposal. All proposals shall include all labor, materials, equipment, supervision, permits, fees, insurance, bonds (if required), and incidental items necessary to provide a complete scope of work as required by the contract documents. Subcontractors shall acknowledge all addenda and include all applicable scope requirements in their proposal.

Any exclusions, clarifications, assumptions, lead times, alternates, substitutions, or value engineering options shall be clearly identified within the proposal. Failure to identify exclusions or clarifications may result in White Sands Construction interpreting the proposal as including all work reasonably inferable from the plans, specifications, addenda, and related contract documents.

Failure to review the contract documents or acknowledge issued addenda shall not relieve the subcontractor of responsibility for providing a complete scope of work.

White Sands Construction reserves the right to accept or reject any proposal, waive informalities, negotiate scope and pricing, and award contracts in the best interest of the project and Owner.

This project is publicly funded. All applicable prevailing wage rates shall apply.

Thank you for your interest in this project and for being a valued partner of our construction team. We appreciate the opportunity to review your proposal and look forward to the opportunity to work together.

Sincerely,

Catlin Curry
